

PUBLIC HEALTH DEPARTMENT[641]

Notice of Intended Action

Twenty-five interested persons, a governmental subdivision, an agency or association of 25 or more persons may demand an oral presentation hereon as provided in Iowa Code section 17A.4(1)“b.”

Notice is also given to the public that the Administrative Rules Review Committee may, on its own motion or on written request by any individual or group, review this proposed action under section 17A.8(6) at a regular or special meeting where the public or interested persons may be heard.

Pursuant to the authority of Iowa Code section 135.22, the Department of Public Health hereby amends Chapter 21, “Central Registry for Brain and Spinal Cord Injuries,” Iowa Administrative Code.

Required reportable conditions were revised in Iowa Code section 135.22 to align with a rule for eligibility for the home- and community-based services waiver for persons with brain injury under the medical assistance program. The proposed amendments update these reportable conditions. As a result, the current hospital reporting structure does not meet these revised requirements. The Department receives information from the Iowa Hospital Association through the In Patient Out Patient (IPOP) database, which contains all the required components needed from the hospitals. These proposed amendments remove the old injury reporting method and replace it to align with hospital reporting requirements for IPOP. This change will result in no additional burden on hospital reporting and will provide the Department with the necessary data to be compliant with Iowa Code section 135.22. The proposed amendments also strike the word “traumatic” in reference to brain injury to align with the Iowa Code. Additional amendments reflect the reportable conditions for brain and spinal cord injury to transition to the International Classification of Diseases, 10th Revision, Clinical Modification.

Any interested person may make written suggestions or comments on the proposed amendments on or before April 5, 2016. Such written comments should be directed to Maggie Ferguson, Brain Injury and Disability Program Manager, Department of Public Health, 321 East 12th Street, Des Moines, Iowa 50319. E-mail may be sent to maggie.ferguson@idph.iowa.gov.

A public hearing will be held on April 5, 2016, from 3 to 4 p.m., at which time persons may present their views either orally or in writing. At the hearing, persons will be asked to give their names and addresses for the record and to confine their remarks to the subject of the amendments.

The public hearing will originate from Room 518 on the fifth floor of the Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa, and will be accessible by calling 1-866-685-1580 and entering the conference code 0009990482 when prompted.

Any person who intends to attend the public hearing and needs an ADA accommodation should contact the Department of Public Health and specify the type of accommodation required.

After analysis and review of this rule making, no impact on jobs has been found.

These amendments are intended to implement Iowa Code section 135.22.

The following amendments are proposed.

ITEM 1. Amend rule 641—21.1(135) as follows:

641—21.1(135) Purpose. This chapter describes the central registry for brain and spinal cord injuries. Data from the registry shall be utilized to facilitate prevention strategies and the provision of appropriate rehabilitative services by the department and other state agencies.

“*Reportable case*” means a person who is ~~admitted or transferred to a hospital~~ discharged from a hospital inpatient acute care, medical rehabilitation or skilled nursing care visit with a diagnosis of acute traumatic brain or spinal cord injury or a person who is ~~pronounced dead in the emergency department of a~~ seen during an outpatient visit to an Iowa hospital with an acute traumatic brain or spinal cord injury.

ITEM 4. Amend rule 641—21.3(135), introductory paragraph, as follows:

The brain and spinal cord injuries listed below are required to be reported to the Iowa Department of Public Health, ~~Division of Health Protection,~~ Lucas State Office Building, Des Moines, Iowa 50319-0075, or its designee, as part of a statewide population-based registry.
